⇒ <http://www.infoplease.com/ipa/A0001328.html>

Choose six buildings to take notes about. Write the name of the building, the country it is in, when it was built and why it was built. Choose at least one building from each category (ancient / later European / Asian, African and American / United States).

Building name	Country	Year/s built	Purpose
1.			
2.			
3.			
4.			
5.			
6.			

⇒ <http://www.teachingtools.com/Slinky/stonehenge.html>

Finish these sentences. (Sometimes several answers are possible.)

7. Stonehenge is in ...

8. No-one knows why it was built, but two popular ideas are;

Firstly ...

And secondly ...

9. It was built in three stages from ...

10. Bluestone weighed ...

11. The heaviest stones ...

Click on another link in the yellow box under Engineering Feats. On the back of this sheet write three sentences about the building you read about.

Work with a group of three or four students. Create your own modern day famous building. What would it look like? What would its purpose be?
